The application has been amended as follows:

In the title:

changed the title to --A GUIDE RAIL FOR A SLIDING CLOSURE HAVING A GUIDE GROOVE WITH A GROOVE FILLING DEVICE--

In the abstract:

changed the abstract to: --A sliding closure system comprising a frame and at least one slidable leaf member. The frame has a frame upper member and a frame lower member each being formed with at least one longitudinal groove. A groove filling device comprising an elastic member and an elongate filling member is disposed in the longitudinal groove of the frame lower member. A lower member of the slidable leaf member includes a height control roller having a projection that is received in the longitudinal groove of the frame lower member for guiding the slidable leaf member longitudinally of the frame lower member.--

Drawings

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: change the cross sectional shading of the elastic member 35 in figures 4-7, 13 and 16 to indicate that the elastic member comprises an elastic material. See MPEP 608.02. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art of record, absent applicant's own disclosure, fails to teach the entire combination of elements set forth in the claimed invention. Specifically, the prior art of record fails to teach a sliding closure system wherein the groove filling device further comprises two elongate roller supporting members at opposite respective sides of the longitudinal groove and separated by an elongate space, and the elastic member urges the elongate filling member into engagement with a generally downwardly facing surface of at least one of said two elongate roller supporting members. See the lines following lines 11 and 12 of claims 5 and 21, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
